Graduated '09

My name is Jake & I'm a San Diego based fullstack developer specializing in React-on-Rails application development. I bring a wealth of past work experience to bear, which allows me to effectively communicate with a variety of stakeholders & approach problems from unconventional ways. I'm eager to tackle new & interesting problems within a supportive, growth-focused development team.

LEARN Academy

San Diego, CA || November '19 ~ March '20

Pair-programmed my way through an intensive full-stack bootcamp that included 480+ hrs. of test-driven React-on-Rails application development.

Rapidly ideated, prototyped, & deployed React-on-Rails applications.

Freelance Web Developer

Orlando, FL || March '15 ~ Ongoing

Taught myself enough HTML, CSS, & JS in 6 weeks to produce a robust website from scratch that my first client was thrilled with.

Completed several web projects including a shopify ecommerce site.

Co-Founder, Product Manager @ the Pet Project

Orlando, FL || Fall '12 ~ Spring '14

Successfully deployed multiple apps to the iOS & Android app stores which solved problems related to pet ownership.

Owner @ Cool Robot Syndicate

Orlando, FL || August '18 ~ Ongoing

Developed a process to identify & capitalize on profitable arbitrage opportunities buying & selling Magic the Gathering cards at scale.

Project Manager @ Body//Talk

Orlando, FL || March '19 ~ September '19

Organized monthly community events with the goal of alleviating the loneliness epidemic, often with hundreds of attendees per event.

Co-managed the org's social media presence and developed marketing materials that generated tens of thousands in profits.

JR. Operations Manager @ 24-7 Intouch

Orlando, FL || May '16 ~ November '18

Hired, trained, & managed 3 levels of customer service operations for one of the worlds most valuable brands.

Mentored team leaders, customer service agents, & a specialized customer escalations team that I personally developed the SOP for.
